## なまえ

1 くふう けいさん 工夫した計算を してみました。さくらんぼにも 数を 書きましょう

$$45 + 7 = \boxed{\phantom{00}}$$

Diagram: A yellow diamond shape contains the number 45. An orange '+' sign is between 45 and 7. Below the '+' sign are two pink circles containing the numbers 5 and 2. A green line connects the 5 and 2 circles to the '+' sign.

$$27 + 8 = \boxed{\phantom{00}}$$

Diagram: A green triangle shape contains the number 27. A green line connects the 3 circle to the top vertex of the triangle. Below the triangle are two pink circles containing the numbers 3 and an empty circle.

$$63 + 9 = \boxed{\phantom{00}}$$

Diagram: A green triangle shape contains the number 9. A green line connects the 7 circle to the top vertex of the triangle. Below the triangle are two pink circles containing the numbers 7 and an empty circle.

$$35 + 6 = \boxed{\phantom{00}}$$

Diagram: A green triangle shape contains the number 6. A green line connects the 5 circle to the top vertex of the triangle. Below the triangle are two pink circles containing the numbers 5 and an empty circle.

$$56 + 8 = \boxed{\phantom{00}}$$

Diagram: A green triangle shape contains the number 8. A green line connects the 4 circle to the top vertex of the triangle. Below the triangle are two pink circles containing the numbers 4 and an empty circle.

$$79 + 4 = \boxed{\phantom{00}}$$

Diagram: A green triangle shape contains the number 4. A green line connects the 1 circle to the top vertex of the triangle. Below the triangle are two pink circles containing the numbers 1 and an empty circle.

$$33 + 9 = \boxed{\phantom{00}}$$

Diagram: A green triangle shape contains the number 9. A green line connects the 7 circle to the top vertex of the triangle. Below the triangle are two pink circles containing the numbers 7 and an empty circle.

$$17 + 7 = \boxed{\phantom{00}}$$

Diagram: A green triangle shape contains the number 7. A green line connects the 3 circle to the top vertex of the triangle. Below the triangle are two pink circles containing the numbers 3 and an empty circle.
